Blueprints for Editing

✓ Where Wizard101 Footage Fits

1. Background Gameplay for Commentary Videos

- Works best for **story-driven or opinion videos** like:
 - “Why Cybersecurity is My Escape Plan”
 - “The Truth About Breaking Into Tech With No Degree”
 - “How I Passed the CCNA with ADHD and Working Full Time”
- Why? These videos are conversational, so gameplay adds visual interest without distracting.

2. Metaphor or Analogy Segments

- Example:
 - “Leveling Up in Tech Feels Like Wizard101” → Use game footage to illustrate career progression.
- This creates a **unique editing style** that ties gaming to tech growth.

3. Trending News Commentary

- Cybersecurity news videos can use Wizard101 footage as a **visual filler** while you explain complex topics.
- Example: “The Latest Cyber Attack That Changed Everything” → Wizard101 gameplay in the background keeps viewers engaged.

✓ How to Make It Unique

- **Overlay Text & Graphics:** Use captions, diagrams, or memes over gameplay to reinforce your points.
- **Color Grading & Filters:** Give the footage a distinct aesthetic (e.g., muted tones or neon cyberpunk).
- **Split Screen:** Show Wizard101 on one side and your facecam or slides on the other.
- **Narrative Hook:** Start with a Wizard101 clip and tie it into your topic:
“Just like defeating bosses in Wizard101, breaking into tech requires strategy...”

✓ Best Video Types for Wizard101 Integration

- **Personal Story Videos** (ADHD, career pivot, CCNA journey)
- **Motivational/Blueprint Videos** (Escape plan, \$150K roadmap)
- **Tech Commentary** (AI tools, degree debates)
- **Trending Cyber News** (visual filler during analysis)

TikTok

Personal storytelling and **Authenticity** over polished, niche-split content.

Your health journey (peptides, weight loss, ADHD, financial struggle) is highly relatable and shareable.

You can sprinkle in finance and mindset without confusing the algorithm because they all tie to **longevity and lifestyle**.

✓ TikTok Content Style for Longevity

- **Personal Clips:**
 - “How I lost 85 lbs without surgery” (quick before/after + voiceover).
 - “The peptide that changed my life” (show bottle, explain benefits).
 - “Funding my health goals while broke” (raw, relatable talk).
- **Day-in-the-Life:**
 - “What I eat for longevity”
 - “My supplement stack”
 - “Studying for tech while managing ADHD”
- **Quick Tips:**
 - “3 habits that added 10 years to my life”
 - “Why I treat health like an investment”

Facebook

✓ Why RPM Matters for You

- **Finance + Tech videos** → Highest RPM (\$4–\$10+).
 - **Health/Longevity videos** → Mid RPM (\$2–\$5).
 - **Trending/viral videos** → Lower RPM but higher reach.
-

How Facebook Pays Creators

- **Ads on Reels:** You earn a share of ad revenue when ads run between your Reels.
- **In-stream ads:** For longer videos (3+ min), you earn more because ads can run mid-roll.
- **Bonuses:** Facebook sometimes offers extra payouts for Reels views.
