

USSS Special Agent Entrance Exam – Practice Test 02

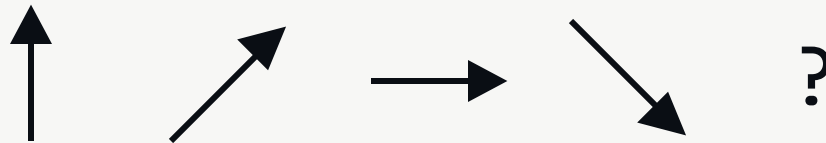

30 questions · Figural Reasoning · Detail Observation · Logic-Based Reasoning · Aligned to 2026 SAEF format

Instructions. Same pacing as Test 01. Treat this as timed.

- **Section A (Figural):** 10 questions in 12 minutes.
- **Section B (Observation):** Study each scene for 90 seconds. Then answer with the scene covered.
- **Section C (LBR):** 10 questions in 25 minutes. Premises are TRUE. Use ONLY what is given.

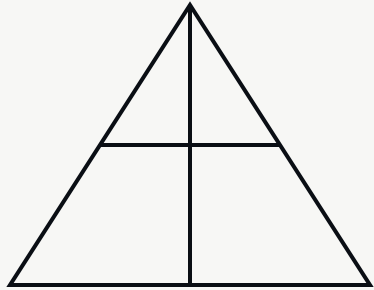

SECTION A – Figural Reasoning (1–10)

1. Each arrow rotates 45° clockwise from the previous. Which arrow comes next?

- A. Arrow pointing up
- B. Arrow pointing down
- C. Arrow pointing left
- D. Arrow pointing up-left
- E. Arrow pointing down-right

2. How many TRIANGLES (of any size) are in the figure below?

A. 4

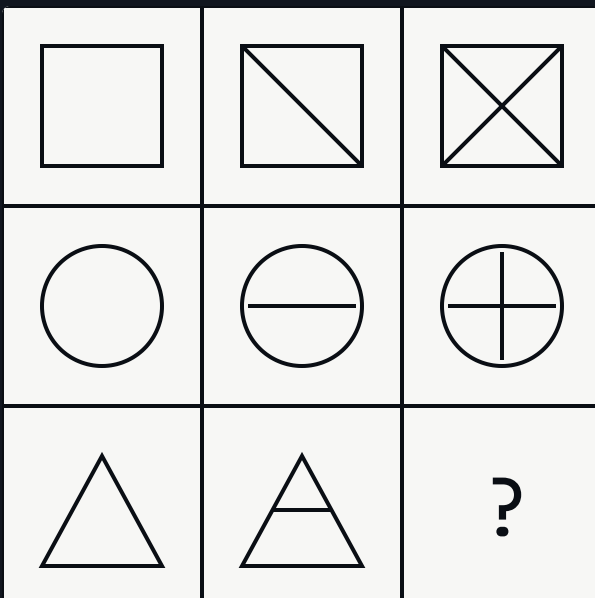

B. 6

C. 8

D. 10

E. 12

3. What completes the 3×3 pattern? Each row adds one internal line to the square.

A. Triangle with 1 horizontal line

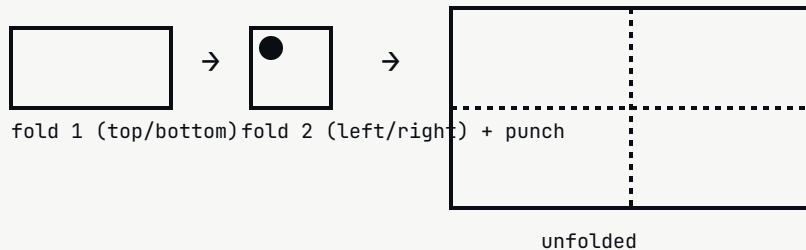

B. Triangle with 2 internal lines (horizontal + vertical)

C. Triangle with 3 internal lines forming a smaller triangle inside

D. Empty triangle

E. Triangle with an X inside

4. A square is folded in HALF top-to-bottom, then in HALF left-to-right. A single hole is punched through all layers at the top-left corner. When fully unfolded, how many holes appear and where?

A. 1 hole in the top-left corner

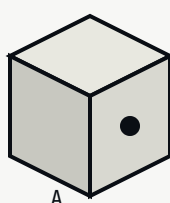

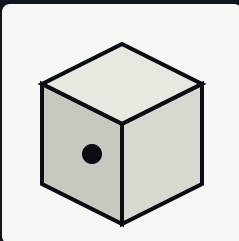

B. 2 holes, top-left and top-right

C. 2 holes, top-left and bottom-left

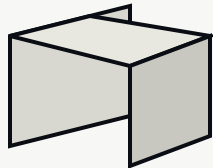

D. 4 holes, one in each corner

E. 4 holes all near the center

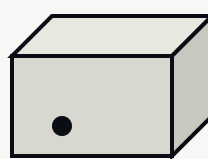

5. The 3D object on the left is rotated. Which option is the SAME object viewed from a different angle (not a mirror image)?

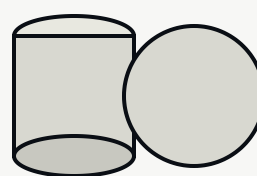

A

B

C

D

E

A. A

B. B

C. C

D. D

E. E

6. Identify the pattern rule and select the next figure in the series.

A. 8 dots

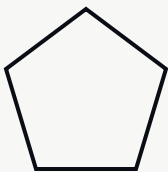

B. 9 dots

C. 10 dots

D. 11 dots

E. 12 dots

7. How many lines of symmetry does the figure below have?

A. 0

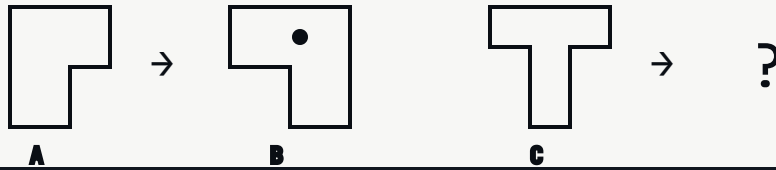

B. 1

C. 2

D. 5

E. Infinite

8. A is to B as C is to ___? (Rule: rotate 90° clockwise AND add an inner dot.)

A. T rotated 90° CW with an inner dot

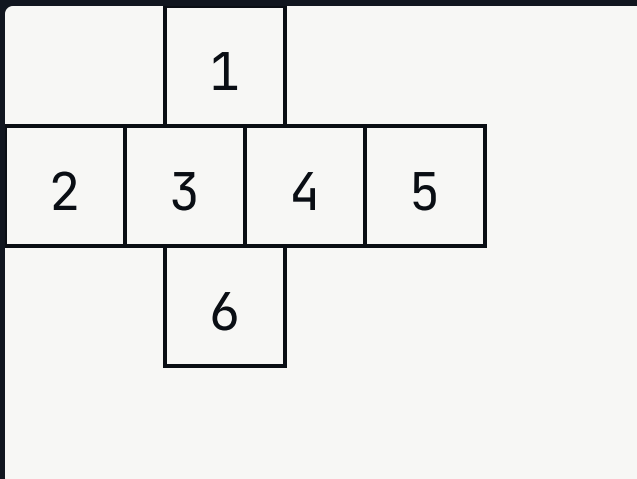

B. T unchanged with an inner dot

C. T rotated 180° with no dot

D. T mirrored horizontally

E. A plain square with a dot

9. A cube has faces labeled 1-6 as shown in the net. When folded, which pair of faces will be OPPOSITE each other?

A. 1 & 3

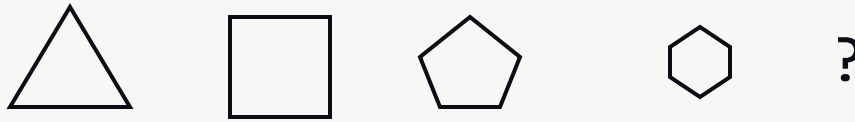

B. 1 & 6

C. 2 & 5

D. 3 & 4

E. Both B and C

10. The shapes grow by one side count and shrink by 5 pixels in radius each step. Which is next?

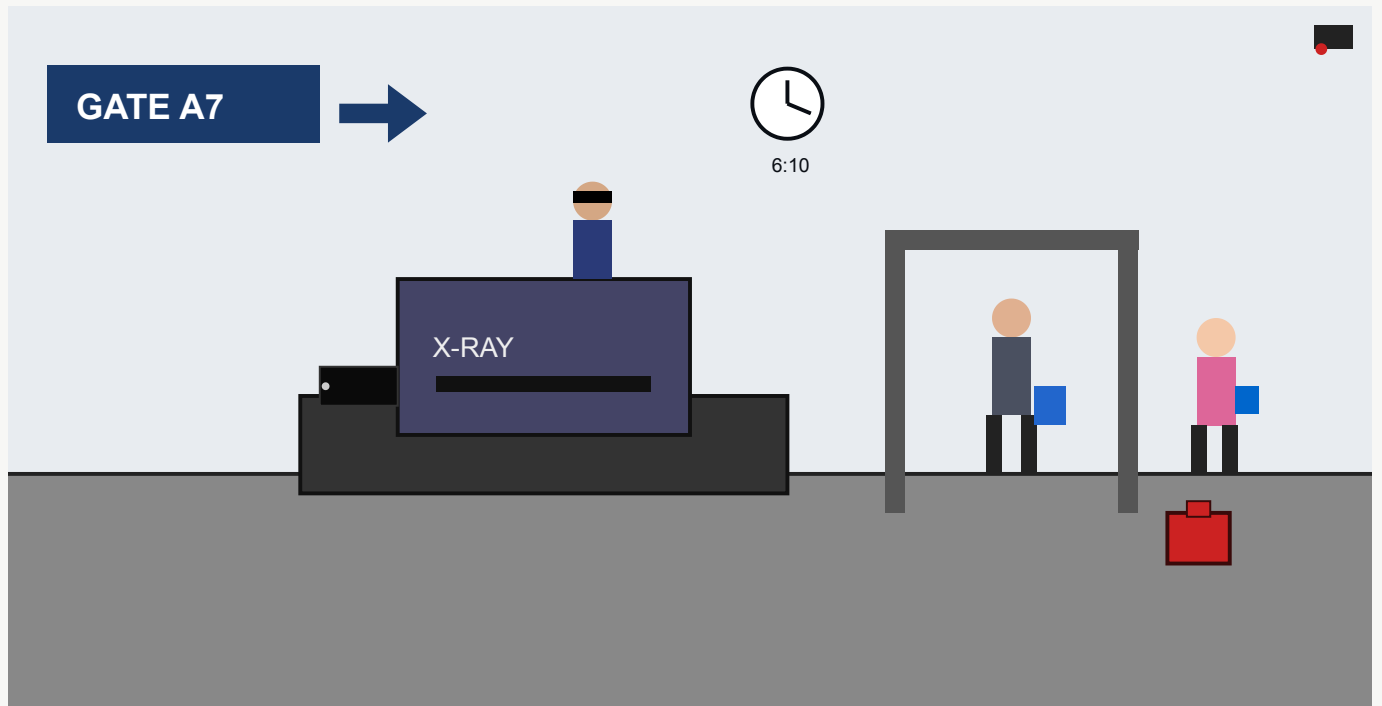

- A. A circle (radius 10)
- B. A heptagon (7 sides, smaller than hexagon)
- C. An octagon (8 sides, larger than hexagon)
- D. A square (same size)
- E. A triangle (bigger)

SECTION B – Detail Observation (11-20)

Scene 3 – Airport Security Checkpoint (study 90 seconds, then cover)

🕒 90 seconds to memorize. Scroll past to answer.

11. What number was on the gate sign?

A. A5

B. A7

C. B7

D. C2

E. No gate sign was visible

12. What time was shown on the clock in the scene?

A. 5:45

B. 6:10

C. 7:30

D. 10:05

E. No clock was visible

13. What color was the suitcase left unattended near the metal detector?

A. Black

B. Blue

C. Red

D. Silver

E. No unattended bag was visible

14. What was the traveler walking through the metal detector carrying?

A. A laptop bag

B. A blue handbag

C. A passport

D. Nothing visible

E. A child

15. The traveler waiting in line behind the metal detector was wearing what color shirt?

A. White

B. Pink

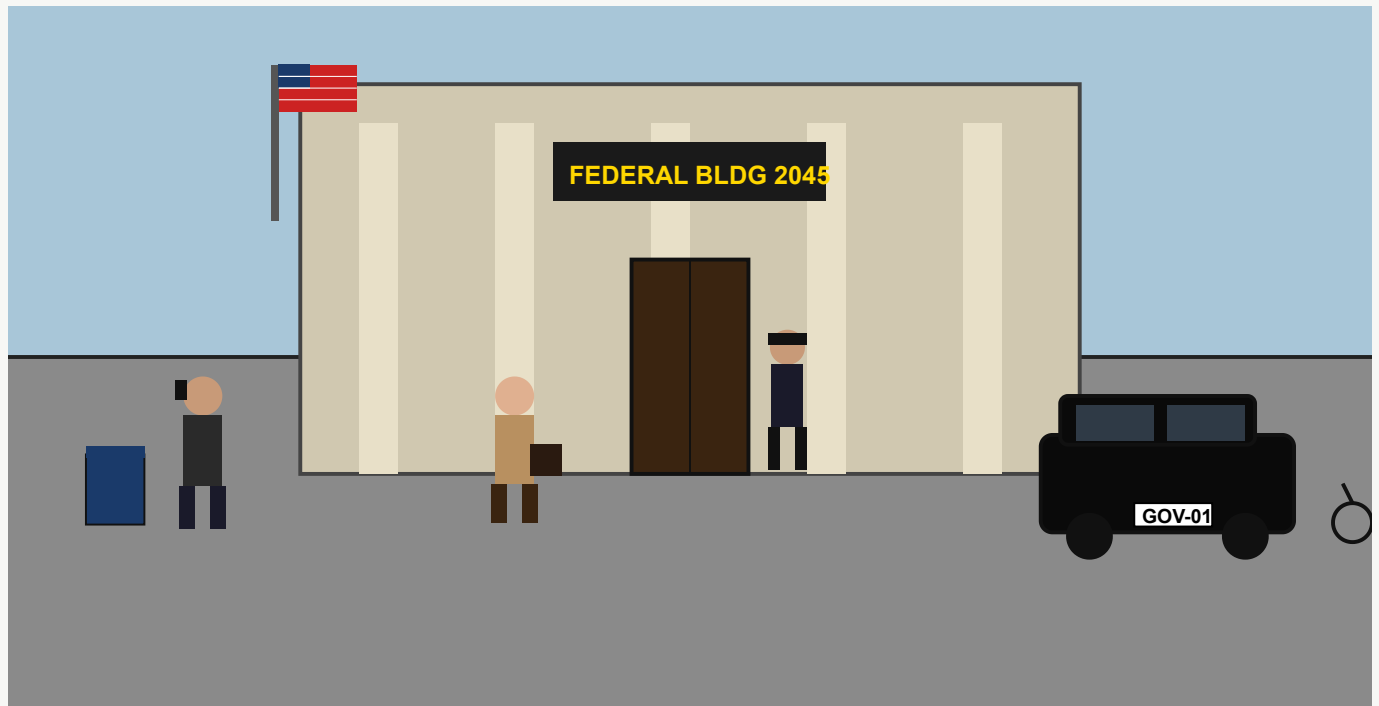

C. Gray

D. Black

E. Red

Scene 4 – Federal Building Entrance (study 90 seconds, then cover)

🕒 90 seconds to memorize. Scroll past to answer.

16. What number was displayed on the federal building sign?

- A. 1776
- B. 2045
- C. 2450
- D. 450
- E. No number was shown

17. What was the license plate on the black SUV parked in front of the building?

- A. GVT-01
- B. GOV-01
- C. GOV-10
- D. USA-01
- E. No plate was visible

18. How many visible columns were on the front of the building?

A. 3

B. 4

C. 5

D. 6

E. 7

19. The man standing near the curb on the left side of the scene was doing what?

A. Holding a briefcase

B. Talking on a phone

C. Reading a newspaper

D. Carrying a child

E. Sitting on a bench

20. What object was located on the left sidewalk of the scene?

A. A fire hydrant

B. A blue USPS mailbox

C. A parking meter

D. A newspaper stand

E. A bench

SECTION C – Logic-Based Reasoning (21–30)

Harder set. Treat all premises as TRUE. Use ONLY the information given.

21. If Agent Torres is assigned to the motorcade, then Agent Yu is assigned to the site advance. If Agent Yu is assigned to the site advance, then Agent Kim is assigned to the command post. Agent Kim is NOT assigned to the command post. Which conclusion follows?

- A. Agent Yu is assigned to the site advance.
- B. Agent Torres is assigned to the motorcade.
- C. Agent Torres is NOT assigned to the motorcade.
- D. Agent Yu is NOT assigned to the site advance, but Torres could still be on the motorcade.
- E. No conclusion can be drawn about any of the agents.

22. Every piece of evidence logged into the vault by 17:00 is available for the morning review. Some pieces logged AFTER 17:00 are also available for the morning review. Evidence #4411 is available for the morning review. Which must be true?

- A. Evidence #4411 was logged by 17:00.
- B. Evidence #4411 was logged after 17:00.
- C. Evidence #4411 was logged at some point – the time cannot be determined from the given information.
- D. Evidence #4411 is counterfeit.
- E. The vault was open all night.

23. All authorized visitors receive a numbered badge. Anyone without a numbered badge is escorted off the premises. Marcus is NOT being escorted off the premises. Which conclusion is most strongly supported?

- A. Marcus has a numbered badge.
- B. Marcus is an authorized visitor.
- C. Marcus works for the agency.
- D. Marcus is both authorized and has a badge.

E. No conclusion about Marcus can be drawn.

24. A witness is reliable ONLY IF they have direct line of sight AND were within 50 feet of the incident. Witness #3 did NOT have direct line of sight. Which must be true?

A. Witness #3 is unreliable.

B. Witness #3 was within 50 feet.

C. Witness #3 was beyond 50 feet.

D. Witness #3 lied.

E. Witness #3 never saw the incident.

25. Five suspects (P, Q, R, S, T) are interviewed one at a time. R is interviewed last. Q is interviewed immediately before T. P is interviewed before Q. S is interviewed before P. What is the interview order?

A. S, P, Q, T, R

B. P, S, Q, T, R

C. S, P, T, Q, R

D. P, Q, T, S, R

E. Q, T, S, P, R

26. If a fingerprint match has fewer than 12 points of similarity, it is NOT admissible as primary evidence. Print #A has 14 points of similarity. From this alone, what can be concluded?

A. Print #A is admissible as primary evidence.

B. Print #A is NOT admissible as primary evidence.

C. Nothing can be concluded about admissibility – 12+ points is necessary but may not be sufficient.

D. Print #A matches the suspect.

E. Print #A was lifted from the scene.

27. No operator on the graveyard shift is also on the swing shift. All operators who responded to the Tuesday alarm were on the graveyard shift. Operator Chen responded to the Tuesday alarm. Which conclusion follows?

A. Chen is on the swing shift.

B. Chen is NOT on the swing shift.

C. Chen was off-duty Tuesday.

D. The swing shift did not respond to the Tuesday alarm.

E. Both B and D are supported.

28. The duty log shows: Whenever the west gate is open, the north gate is closed. Whenever the north gate is closed, the east gate is open. The east gate is CLOSED at 22:00. Which can be concluded?

A. The west gate is open at 22:00.

B. The west gate is NOT open at 22:00.

C. The north gate is closed at 22:00.

D. The north gate is open at 22:00.

E. Both B and D are supported.

29. Most field agents have completed language training. A few non-field agents have also completed language training. Agent Bell has completed language training. Which conclusion is justified?

A. Bell is a field agent.

B. Bell is NOT a field agent.

C. Whether Bell is a field agent cannot be determined.

D. Language training is required of field agents.

E. Most non-field agents have NOT completed language training.

30. Only vehicles with Level 3 clearance may enter the inner courtyard. Vehicle 774 entered the inner courtyard this morning. Vehicle 774 has Level 1 clearance only. Which is the strongest supported conclusion?

A. Vehicle 774 was granted a temporary exception.

B. The Level 3 requirement does not apply in the morning.

C. The premises as stated are inconsistent – one of them must be false.

D. Vehicle 774 will be stopped retroactively.

E. The security log is corrupted.

► **ANSWER KEY & EXPLANATIONS – open after you finish**
