

USSS Special Agent Entrance Exam – Practice Test 03

30 questions · Advanced figural · Multi-scene observation with interference · Complex LBR · 2026 SAEF format

Instructions. Harder than Tests 01–02. Pacing:

- **Section A (Figural):** 10 questions in 12 minutes.
- **Section B (Observation):** Study Scene 5 for 90 seconds. Then study Scene 6 for 90 seconds. THEN answer all 10 questions. (Interference-style – the real exam tests your memory after distraction.)
- **Section C (LBR):** 10 questions in 25 minutes. Expect chained conditionals and numeric quantifiers.

SECTION A – Figural Reasoning (1–10)

1. The letter on the left is rotated 180°. Which option is the correct result?

A

B

C

D

E

A. A

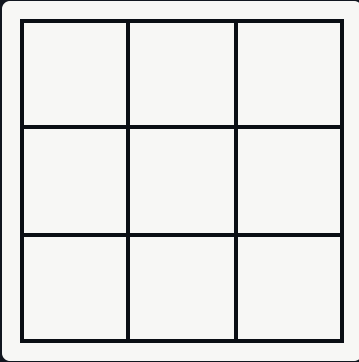

B. B

C. C

D. D

E. E

2. How many SQUARES (of any size) are in the 3×3 grid below?

A. 9

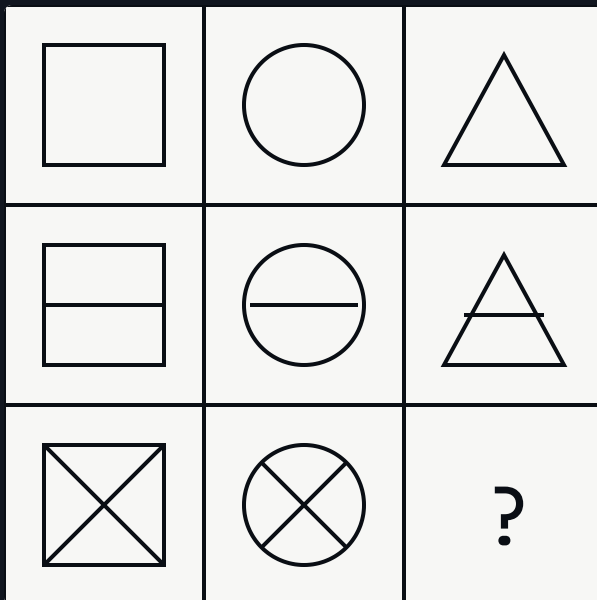

B. 10

C. 13

D. 14

E. 16

3. The 3×3 matrix follows TWO rules (rows add a line; columns change shape). Which figure fills the missing cell?

A. Triangle with a horizontal bar

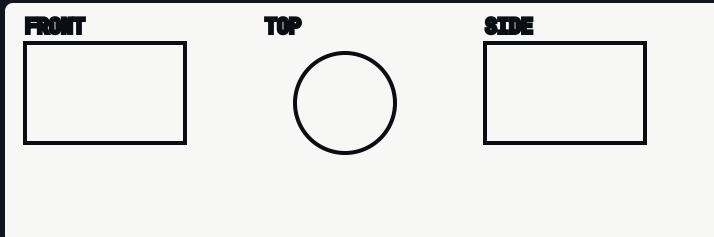

B. Triangle with an X inside

C. Square with an X inside

D. Empty triangle

E. Triangle with 3 dots

4. Three views (front, top, side) of a 3D object are shown. Which option is the 3D shape that matches?

A. A cube

B. A sphere

C. A cylinder lying on its side

D. A cone

E. A pyramid

5. Identify the rule and fill in the missing value.

A. 24

B. 28

C. 30

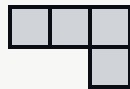

D. 32

E. 36

6. Four of these figures can be made from the SAME block of shapes by rotation. Which figure CANNOT?

A

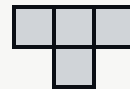

B

C

D

E

A. A

B. B

C. C

D. D

E. E

7. A square sheet is folded in HALF three times (creating 8 layers), then a single hole is punched at the center of the final folded piece. When fully unfolded, how many holes appear?

A. 1

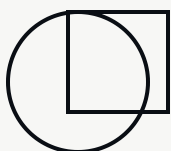

B. 2

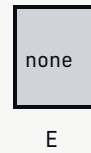

C. 4

D. 8

E. 16

8. Two overlapping shapes are shown. Which option correctly depicts ONLY the region where both shapes overlap?

A. A – the lens-shaped overlap region on the right side of the circle

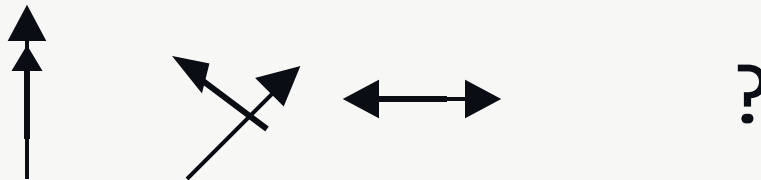

B. B – the left cap of the circle outside the square

C. C – the full circle

D. D – the full square

E. E – no overlap exists

9. Two arrows rotate in opposite directions (outer 45° clockwise, inner 45° counter-clockwise per step). Which figure comes next?

A. Outer: down-right, inner: down-left

B. Outer: down-right, inner: up-right

C. Outer: up-right, inner: down-left

D. Both arrows pointing down

E. Both arrows pointing up

10. The figures combine two rules: (1) shape adds one side each step; (2) dot count cycles 1→2→3→1→2. Which figure comes next?

A. Heptagon (7 sides) with 2 dots

B. Heptagon with 3 dots

C. Octagon with 2 dots

D. Pentagon with 2 dots

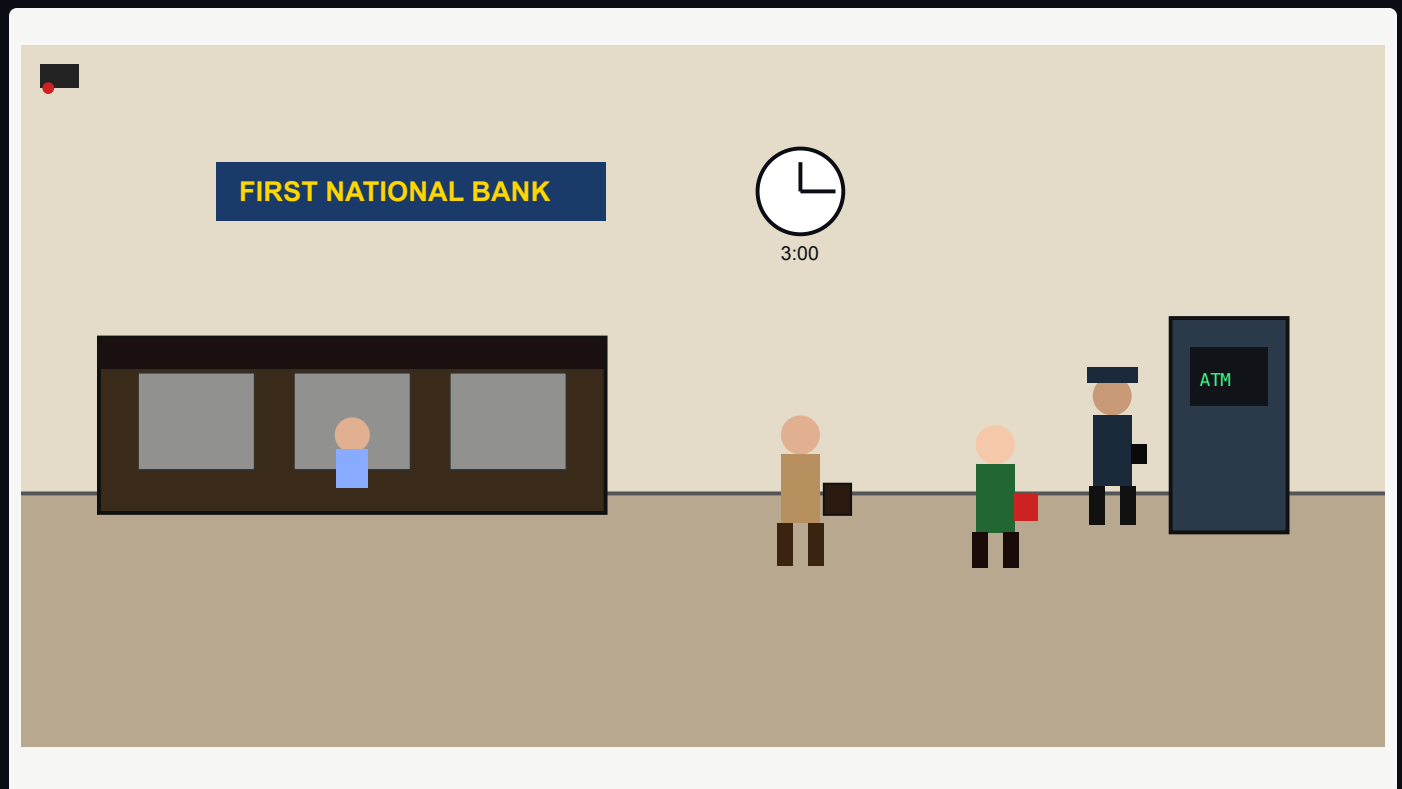

E. Hexagon with 2 dots

SECTION B – Detail Observation with Interference (11–20)

Study Scene 5 for 90 seconds, then Scene 6 for 90 seconds back-to-back. THEN answer all 10 questions with both scenes covered. The interference tests whether later details overwrite earlier memory.

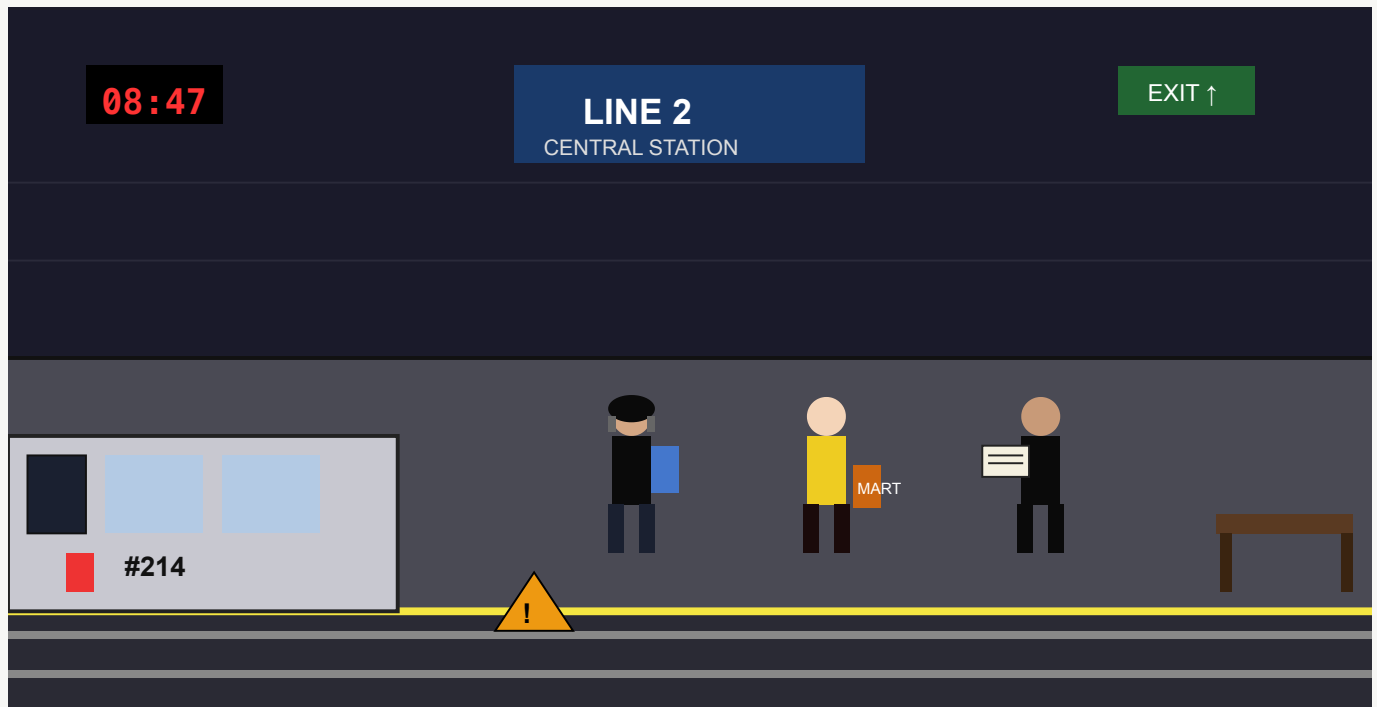

Scene 5 – Bank Lobby (study 90 seconds)

🕒 First 90 seconds. Memorize.

Scene 6 – Subway Platform (study 90 seconds)

⌚ Second 90 seconds. Memorize. DO NOT go back to Scene 5.

⌚ Both scenes studied. Scroll down and answer all 10 questions WITHOUT scrolling back up.

11. (Scene 5) What was the name of the bank on the sign?

- A. United Federal Bank
- B. First National Bank
- C. American Trust Bank
- D. Central Savings Bank
- E. No name was visible

12. (Scene 5) How many teller windows were shown at the counter?

- A. 2
- B. 3
- C. 4

D. 5

E. No teller windows visible

13. (Scene 5) What color was the dress worn by the younger woman customer?

A. Red

B. Green

C. Yellow

D. Navy blue

E. Black

14. (Scene 5) What time did the wall clock show?

A. 2:15

B. 3:00

C. 4:45

D. 9:30

E. No clock was visible

15. (Scene 5) Was an armed guard visible, and if so, what distinguished them?

A. No guard was visible

B. Guard in a brown uniform with a baton

C. Guard in a dark blue uniform with a visible holster

D. Guard in a black suit with an earpiece

E. Guard in casual clothes with a radio

16. (Scene 6) What was the train number on the arriving train?

A. #124

B. #214

C. #241

D. #412

E. No train number was visible

17. (Scene 6) What did the digital clock display?

A. 07:25

B. 08:47

C. 09:15

D. 11:03

E. No digital clock was visible

18. (Scene 6) The passenger on the left was wearing what, and carrying what?

A. Yellow jacket, orange shopping bag labeled MART

B. Black hoodie, headphones, blue backpack

C. Black suit, newspaper

D. Tan coat, briefcase

E. Green dress, red purse

19. (Scene 6) What station/line did the sign indicate?

A. Line 1 – Union Station

B. Line 2 – Central Station

C. Line 3 – Downtown

D. Line 2 – West End

E. No station sign was visible

20. (Cross-scene) In WHICH scene was a red object a key detail, and what was that red object?

A. Scene 5 only – red purse carried by the younger woman

B. Scene 6 only – red door on the train

C. Both scenes – red purse (5) and red train door (6)

D. Neither scene had a red object

E. Both scenes – red coat (5) and red sign (6)

SECTION C – Logic-Based Reasoning (21–30)

21. If the subject was at the scene, their DNA is on the weapon. If their DNA is on the weapon, the match probability exceeds 99%. The match probability is 47%. Which conclusion follows?

A. The subject was at the scene.

B. The subject was NOT at the scene.

C. The DNA is from a relative.

D. The weapon was planted.

E. Nothing about the subject can be concluded.

22. Exactly 3 of the 5 agents on duty are bilingual. Agent Cole is NOT bilingual. Agent Diaz IS bilingual. Agent Evers is NOT bilingual. What can be concluded about the remaining two agents (Agent Azar and Agent Bray)?

A. Both are bilingual.

B. Both are NOT bilingual.

C. One is bilingual, one is not – which is which cannot be determined.

D. Azar is bilingual; Bray is not.

E. Bray is bilingual; Azar is not.

23. If the alarm is tripped, dispatch is called within 30 seconds. Dispatch was called at 14:02:15. The alarm was tripped at some point. Which must be true?

A. The alarm was tripped at 14:02:15 exactly.

B. The alarm was tripped no earlier than 14:01:45.

C. The alarm was tripped at exactly 14:01:45.

D. The alarm was tripped at 14:00:00.

E. Nothing about when the alarm tripped can be concluded.

24. Only vehicles issued a red placard may park in the VIP lot. Vehicle X was parked in the VIP lot at 09:30. Which is most strongly supported?

A. Vehicle X was issued a red placard.

B. Vehicle X was parked illegally.

C. Red placards are issued only to VIPs.

D. Nothing about Vehicle X can be concluded.

E. Vehicle X is a government vehicle.

25. Six packages (A, B, C, D, E, F) are inspected in a single line. C is inspected immediately before F. A is inspected somewhere before C. D is inspected fourth. B is inspected after E. E is not first. Which order is consistent with all statements?

A. A, E, C, D, F, B

B. A, E, B, D, C, F

C. E, A, C, D, F, B

D. A, B, E, D, C, F

E. E, C, A, D, F, B

26. Any operation requiring Level 2 authorization also requires a witness signature. Operation 774 was conducted without a witness signature. Which conclusion follows?

A. Operation 774 did NOT require Level 2 authorization.

B. Operation 774 was unauthorized.

C. The witness was absent.

D. Operation 774 was Level 1.

E. Both A and B are equally supported.

27. No evidence handled by Officer Lee has ever been disputed in court. Evidence Bag 1199 has been disputed in court. Which must be true?

A. Officer Lee mishandled evidence.

B. Officer Lee did not handle Evidence Bag 1199.

C. The court ruled against Officer Lee.

D. Evidence Bag 1199 was fabricated.

E. Officer Lee was present but did not handle Bag 1199.

28. If AND ONLY IF both biometric AND keycard verification pass, does the vault unlock. On Monday the vault did NOT unlock. Which conclusion follows?

A. Biometric verification failed.

- B. Keycard verification failed.
- C. At least one of biometric OR keycard verification failed.
- D. Both biometric AND keycard verification failed.
- E. Nothing can be concluded about the verification systems.

29. Agents working the overnight shift receive a per-diem allowance. Agent Fox received a per-diem allowance this week. Which conclusion is most strongly supported?

- A. Fox worked the overnight shift this week.
- B. Fox did NOT work the overnight shift this week.
- C. Whether Fox worked the overnight shift cannot be determined.
- D. Per-diem is given only to overnight agents.
- E. Fox is a supervisor.

30. Three suspects are questioned: Alvarez, Bates, and Cruz. EXACTLY ONE is telling the truth. Alvarez says: "Bates is lying." Bates says: "Cruz is lying." Cruz says: "Alvarez and Bates are both lying." Who is telling the truth?

- A. Alvarez
- B. Bates
- C. Cruz
- D. Cannot be determined
- E. The statements are inconsistent – no valid solution
