

USSS Uniformed Division Entrance Exam:

Practice Test 05

30 questions · Maximum difficulty · Advanced figural · Dual-scene observation with deep interference · Multi-premise LBR · 2026 UDEE format

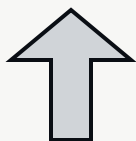

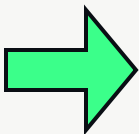

Instructions. This is the HARDEST test in the series (Tests 01 through 04 built up to this). Target: 65 minutes total. Pacing:

- **Section A (Figural):** 10 questions in 15 minutes. Expect 3D reasoning, multi-rule matrices, asymmetric folds.
- **Section B (Observation):** Study Scene 9 for 90 seconds. Then study Scene 10 for 90 seconds. THEN answer all 10 questions without scrolling back. Higher detail density than Tests 01 through 03.
- **Section C (LBR):** 10 questions in 30 minutes. Expect nested biconditionals, pigeonhole reasoning, and at least one puzzle with NO valid solution (trap).

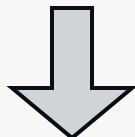

Answer key: Separate file: [answer-key-test-05.html](#). Do not peek until you finish.

SECTION A: Figural Reasoning (1 through 10)

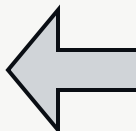

1. The arrow figure on the left is rotated 90° COUNTER-CLOCKWISE. Which option (A through E) shows the correct result?

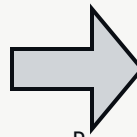

A

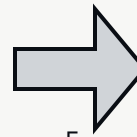

B

C

D

E

A. A: arrow pointing up

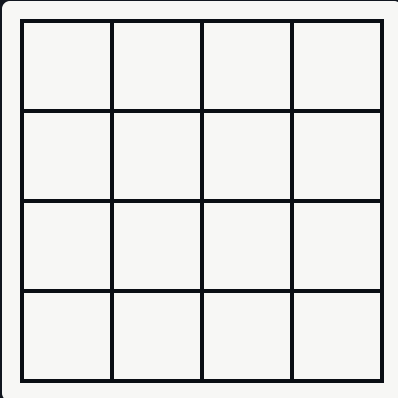

B. B: arrow pointing down

C. C: arrow pointing left

D. D: arrow pointing right (same as original)

E. E: identical to original

2. How many SQUARES (of any size) can be traced on the 4×4 grid below?

A. 16

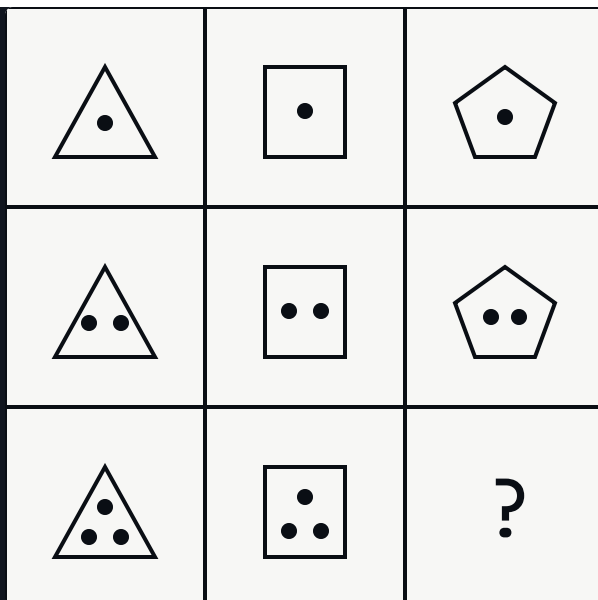

B. 20

C. 24

D. 30

E. 36

3. The 3×3 matrix obeys TWO rules (one across rows, one across columns). Which figure fills the missing cell in row 3, column 3?

A. Pentagon with 2 dots

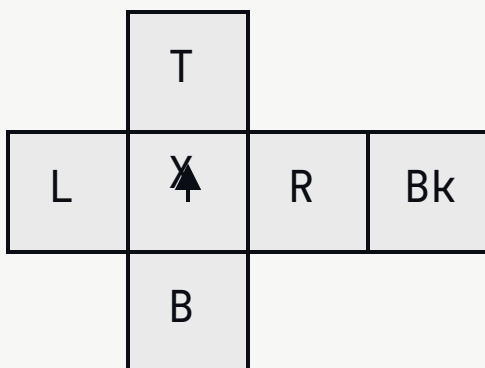

B. Pentagon with 3 dots

C. Hexagon with 3 dots

D. Square with 3 dots

E. Triangle with 3 dots

4. The cross-shaped net below folds into a cube. Labels are on the OUTSIDE of each face. When folded, which cube is the result? (The arrow on the X face points to the TOP when viewed from the front.)

Legend: T = top, B = bottom, L = left, R = right, X = front, Bk = back.

A. X front, T top, B bottom, L left, R right, Bk back. Arrow on X points up.

B. X front, T bottom, B top, L right, R left. Arrow on X points up.

C. X front, L top, R bottom, T left, B right. Arrow on X points right.

D. Bk front, R top, L bottom, T right, B left. Arrow on X points up.

E. X front, T top, Bk bottom, L left, R right. Arrow on X points down.

5. Find the rule and the missing value.

2

5

11

23

47

?

A. 71

B. 82

C. 94

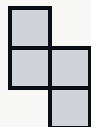

D. 95

E. 96

6. Four of these five figures are the SAME tetromino piece rotated in the plane (no reflection allowed). Which figure CANNOT be made by rotating the others?

A

B

C

D

E

A. A

B. B

C. C

D. D

E. E

7. A square sheet of paper is folded in HALF four consecutive times (each fold doubles the layer count). A single hole is then punched through the center of the final folded piece. When fully unfolded, how many holes are visible?

A. 4

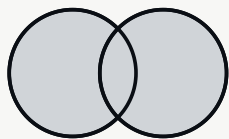

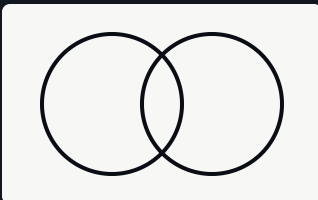

B. 6

C. 8

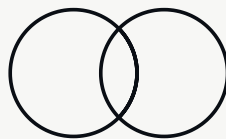

D. 12

E. 16

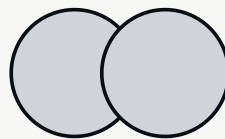

8. Two overlapping circles are shown on the left. Which option correctly shades ONLY the symmetric difference (the area inside EITHER circle but NOT in both)?

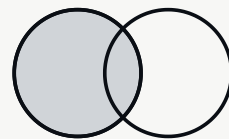

A

B

C

D

A. A: both crescents shaded, overlap lens empty

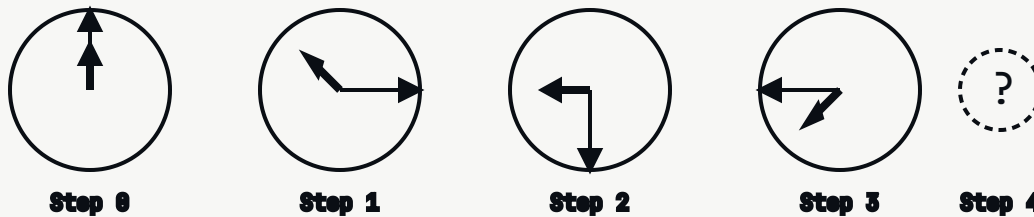

B. B: only the center overlap lens shaded

C. C: the entire union shaded

D. D: only the left crescent shaded

E. None of the above

9. Two arrows share a common center. The OUTER arrow (thin) rotates 90° CLOCKWISE each step. The INNER arrow (thick) rotates 45° COUNTER-CLOCKWISE each step. Step 0 shows both arrows pointing UP. Which option correctly shows the state after STEP 4?

- A. Outer UP, inner DOWN
- B. Outer RIGHT, inner UP
- C. Outer DOWN, inner UP
- D. Outer UP, inner UP
- E. Outer LEFT, inner DOWN-RIGHT

10. The figures follow THREE simultaneous rules: (1) shape adds one side each step; (2) the number of dots follows 1, 2, 3, 4, ?; (3) shading cycles empty → hatched → solid → empty → ?. Which figure comes NEXT (step 5)?

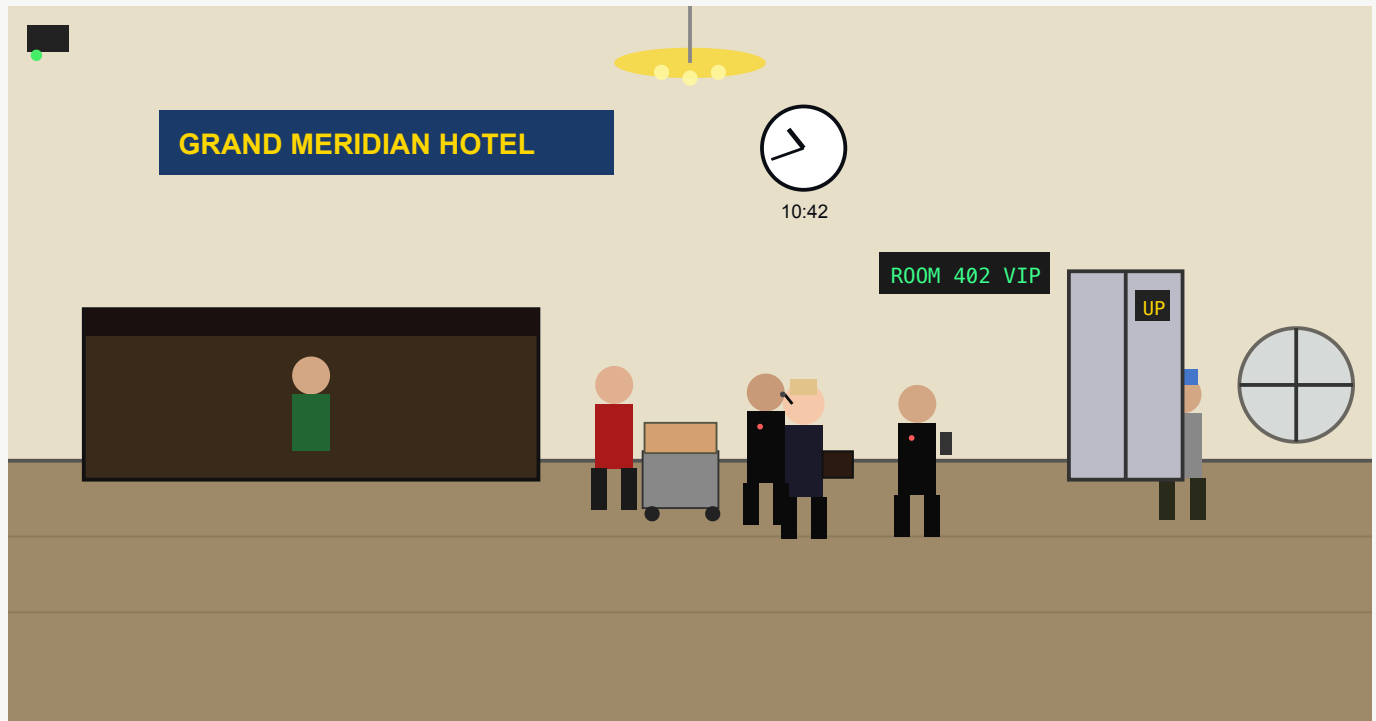

- A. Heptagon (7 sides), solid, 5 dots
- B. Heptagon (7 sides), hatched, 5 dots
- C. Octagon (8 sides), hatched, 5 dots
- D. Hexagon, hatched, 5 dots
- E. Heptagon (7 sides), empty, 5 dots

SECTION B: Detail Observation with Interference (11 through 20)

Study Scene 9 for 90 seconds. Then study Scene 10 for 90 seconds back-to-back. THEN answer all 10 questions with both scenes scrolled off-screen. This tests detail retention under visual interference; hard cases appear on the real exam.

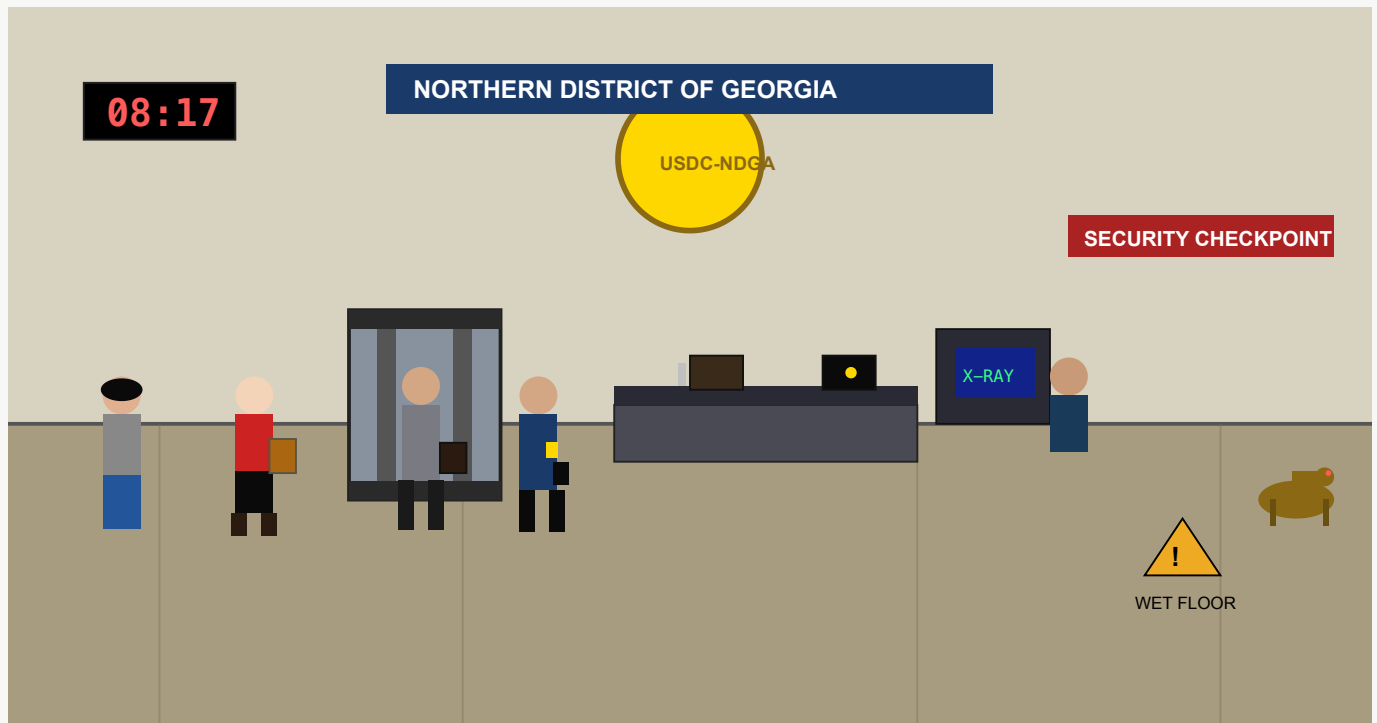

Scene 9: Hotel Lobby Protective Detail (study 90 seconds)

🕒 First 90 seconds. Memorize. Details matter.

Scene 10: Federal Courthouse Security Line (study 90 seconds)

🕒 Second 90 seconds. Memorize. DO NOT scroll back to Scene 9.

⌚ Both scenes studied. Scroll down and answer ALL 10 questions WITHOUT scrolling back up.

11. (Scene 9) What was the name of the hotel shown on the lobby sign?

- A. Grand Meridian Hotel
- B. Meridian Plaza Hotel
- C. Grand Sheraton Hotel
- D. Meridian Grand Tower
- E. No hotel name was visible on the sign

12. (Scene 9) What time did the wall clock display?

- A. 9:30
- B. 10:10
- C. 10:42
- D. 11:15

E. No clock was visible in Scene 9

13. (Scene 9) What was the protectee (the woman) wearing?

A. Red dress with a blue sash

B. Green pantsuit

C. Dark (navy/black) pantsuit, carrying a briefcase

D. Yellow blazer and black skirt

E. Gray business dress with a scarf

14. (Scene 9) What was labeled on the sign next to the VIP accommodation?

A. Room 204

B. Suite 1400

C. Room 402 VIP

D. Presidential Suite

E. No room sign was visible

15. (Scene 9) On the far right of the lobby, a person stood near the revolving door. What item distinguished them?

A. A briefcase and a gray suit

B. A camera and a blue cap

C. A red bouquet and a dark overcoat

D. A folded newspaper and reading glasses

E. A service dog and a red leash

16. (Scene 10) What court jurisdiction appeared on the sign above the seal?

A. Southern District of Georgia

B. Northern District of Georgia

C. Eastern District of Georgia

D. Middle District of Georgia

E. District of Columbia

17. (Scene 10) What did the digital clock display?

A. 07:25

B. 08:17

C. 09:45

D. 11:30

E. No digital clock was visible

18. (Scene 10) What was the woman in line wearing?

A. Yellow jacket, black pants, orange shopping bag

B. Red blazer, black skirt, orange tote bag

C. Gray suit, white blouse, brown briefcase

D. Black dress, tan overcoat, red purse

E. Navy blazer, gray skirt, black handbag

19. (Scene 10) Which of the following was present at the checkpoint?

A. A K-9 unit (working dog)

B. A bomb-sniffing robot

C. A bank teller counter

D. A luggage cart

E. A chandelier

20. (Cross-scene) In WHICH scene did the clock show a time in the morning hours (before noon), and what was that time?

A. Only Scene 9, at 10:42

B. Only Scene 10, at 08:17

C. Both scenes: Scene 9 at 10:42 and Scene 10 at 08:17

D. Both scenes showed evening/PM times

E. Neither clock was readable

SECTION C: Logic-Based Reasoning (21 through 30)

21. The vault opens IF AND ONLY IF BOTH (biometric verification AND keycard verification) succeed AND AT LEAST ONE of (supervisor code OR emergency override) is entered. On Tuesday the vault did NOT open. Which conclusion MUST follow?

A. Biometric verification failed and no supervisor code was entered.

B. Keycard verification failed and the emergency override also failed.

C. Both supervisor code and emergency override were not entered.

D. At least one clause failed: biometric, keycard, or both authorization codes.

E. The vault likely malfunctioned; no input failure can be inferred.

22. Seven packages (A, B, C, D, E, F, G) are inspected in a single-file line. Constraints: (1) A is inspected immediately before D; (2) F is inspected fifth; (3) C is inspected at some point before F; (4) B is

inspected last; (5) E is not inspected first. Which order is consistent with ALL constraints?

A. A, D, C, E, F, G, B

B. D, A, C, E, F, G, B

C. A, C, D, E, F, G, B

D. A, D, E, G, C, F, B

E. E, A, D, C, F, G, B

23. Thirty-two agents are assigned to exactly six patrol zones. Each agent works exactly one zone. What is the MINIMUM number of agents that must be assigned to the most-staffed zone?

A. 5

B. 6

C. 7

D. 8

E. Cannot determine without more information

24. Four suspects are interviewed: Alvarez, Bates, Cruz, and Dietz. EXACTLY TWO are telling the truth. Their statements:

- Alvarez: "Bates is lying."
- Bates: "Cruz and Dietz are both telling the truth."
- Cruz: "Alvarez is telling the truth."
- Dietz: "Exactly one of Alvarez and Bates is lying."

Which pair is telling the truth?

A. Alvarez and Cruz

B. Alvarez and Dietz

C. Bates and Cruz

D. Cruz and Dietz

E. No pair satisfies all four statements under the "exactly two truthful" constraint

25. "If a subject is BOTH armed AND actively resistant, then standard force protocol applies." On incident #714, standard force protocol was NOT applied. Which conclusion MUST follow?

A. The subject was not armed at the time of contact.

B. The subject was not resistant at the time of contact.

C. The subject was either not armed, or not resistant, or both.

D. The subject was both unarmed and fully compliant.

E. The force protocol was violated by the responding officer.

26. "Either Gate A is open or Gate B is open, but not both." Investigators confirm Gate B is CLOSED. Which conclusion MUST follow?

A. Gate A is open.

B. Gate A is closed.

C. Both gates are closed.

D. Cannot determine the state of Gate A.

E. The rule is internally inconsistent.

27. In a field office, 90% of agents carry a radio, and 40% carry BOTH a radio AND a sidearm. Given that an agent carries a radio, what is the probability they also carry a sidearm? (Choose the closest value.)

A. 36%

B. 40%

C. 44%

D. 50%

E. 90%

28. Premises:

- All K-9 handlers are Level 3 certified.
- All Level 3 certified personnel complete monthly drills.
- Agent Tate completes monthly drills.

Which conclusion is MOST STRONGLY supported?

A. Agent Tate is a K-9 handler.

B. Agent Tate is Level 3 certified.

C. Agent Tate is either a K-9 handler or Level 3 certified.

D. Nothing can be concluded specifically about Agent Tate's certification or role from these premises.

E. Agent Tate is a supervisor.

29. A protective detail covers FIVE consecutive events (Event 1 through Event 5) in a single day. Facts:

- Event 3 occurs exactly two hours after Event 1.
- Event 2 occurs before Event 3 but after Event 1.
- Event 5 occurs at 18:00.
- Events 4 and 5 are exactly 90 minutes apart.
- Event 1 occurs at 13:00.

Which statement MUST be true?

A. Event 2 occurs at 14:00 exactly.

B. Event 4 occurs at 16:30.

C. Event 3 occurs at 16:00.

D. Event 2 occurs at 15:30.

E. The order of events cannot be determined.

30. Consider three statements referring to each other:

- S1: "At least one of S2 or S3 is true."

- S2: "Exactly one of S1 or S3 is true."
- S3: "S1 is false."

Which assignment of truth values is CONSISTENT?

- A. S1 = true, S2 = true, S3 = false
- B. S1 = true, S2 = false, S3 = true
- C. S1 = false, S2 = true, S3 = true
- D. S1 = false, S2 = false, S3 = true
- E. No assignment of truth values is consistent

Finished? The answer key and per-question explanations are in a separate document: [answer-key-test-05.html](#). Review every miss before moving on. Test 05 is designed to be harder than the real UDEE in Sections B and C; if you score 23 or higher, you are prepared.
