

USSS Uniformed Division Entrance Exam:

Practice Test 06

30 questions · Maximum difficulty · 3D figural · Motorcade + event observation · Multi-premise LBR · 2026 UDEE format

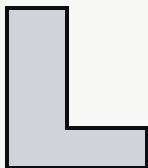

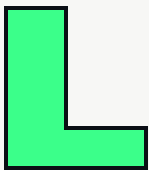

Instructions. Test 06 covers different question patterns than Test 05. Target: 65 minutes total. Pacing:

- **Section A (Figural):** 10 questions in 15 minutes. Expect dice/orientation reasoning, triangle counting, matrix patterns, and water-reflection tests.
- **Section B (Observation):** Study Scene 11 for 90 seconds, then Scene 12 for 90 seconds. THEN answer all 10 questions without scrolling back. Both scenes are high-stakes detail scenarios.
- **Section C (LBR):** 10 questions in 30 minutes. Expect disjunction contrapositives, XOR reasoning, pigeonhole, and at least one self-referential puzzle.

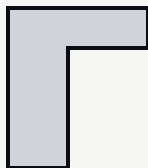

Answer key: Separate file: [answer-key-test-06.html](#). Do not peek until you finish.

SECTION A: Figural Reasoning (1 through 10)

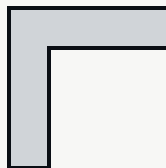

1. The L-shaped figure on the left is rotated 180° about its center. Which option (A through E) shows the correct result?

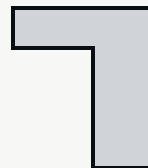

A

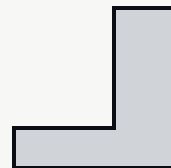

B

C

D

E

A. A: identical to the original

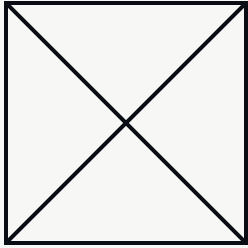

B. B: flipped top-to-bottom only

C. C: rotated 90° clockwise

D. D: rotated 180°

E. E: mirror image across the vertical axis

2. How many TRIANGLES (of any size) can be traced on the figure below: a square with both diagonals drawn?

A. 4

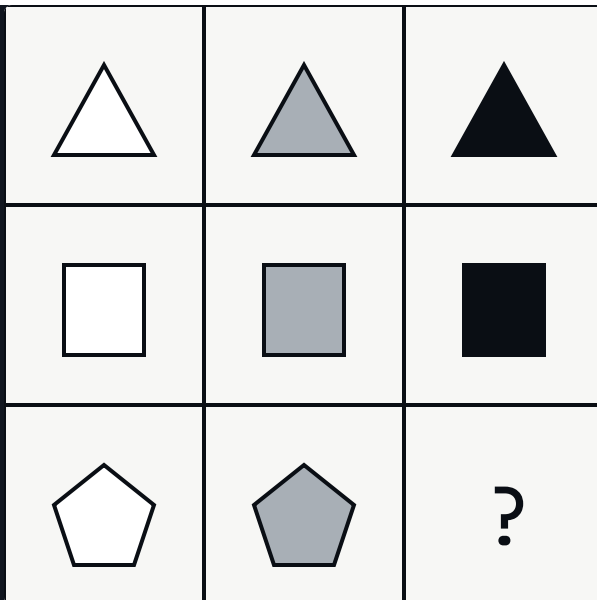

B. 6

C. 7

D. 8

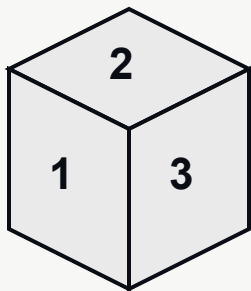

E. 10

3. The 3×3 matrix obeys TWO rules. Rows change shape. Columns change fill color (white, gray, black). Which figure fills the missing cell in row 3, column 3?

- A. Gray pentagon
- B. Black pentagon
- C. Black hexagon
- D. White pentagon
- E. Black square

4. A standard die has opposite faces that sum to 7. A die is placed with the number 2 on TOP, 1 on the FRONT, and 3 on the RIGHT side. What number appears on the BOTTOM face?

- A. 3
- B. 4
- C. 5

D. 6

E. Cannot determine without seeing all faces

5. Find the rule and the missing value.

1

2

6

24

120

?

A. 240

B. 360

C. 480

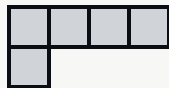

D. 600

E. 720

6. Four of these five 5-cell figures are the SAME pentomino piece rotated in the plane (no reflection allowed). Which figure CANNOT be produced by rotating the others?

A

B

C

D

E

A. A

B. B

C. C

D. D

E. E

7. A square sheet of paper is folded in HALF three consecutive times (each fold doubles the layer count). A single hole is then punched through the exact center of the final folded piece. When fully unfolded, how many holes are visible?

A. 3

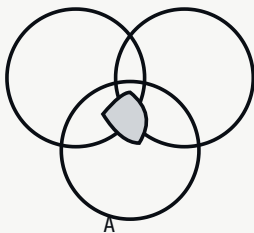

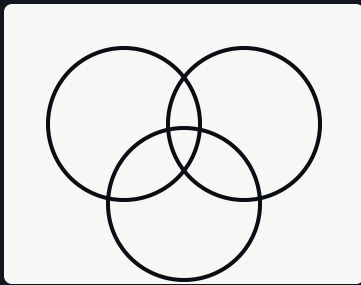

B. 4

C. 8

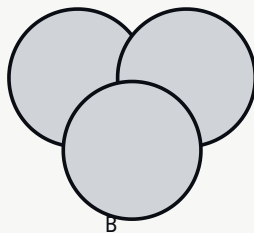

D. 12

E. 16

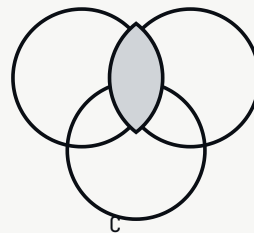

8. Three circles overlap as shown on the left, with all three sharing a common center region. Which option correctly shades ONLY the region that is inside ALL THREE circles?

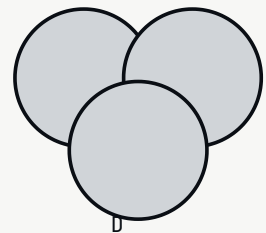

A

B

C

D

A. A: only the small central region is shaded

B. B: the three outer crescents are shaded

C. C: only one pairwise intersection is shaded

D. D: the entire three-circle union is shaded

E. None of the options depicts the triple-overlap region

9. A compass pointer begins pointing NORTH. Each step, it rotates 90° CLOCKWISE. After exactly 7 steps, in which cardinal direction does the pointer face?

A. North

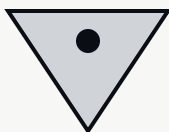

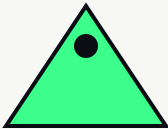

B. East

C. South

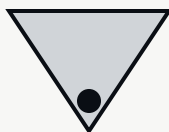

D. West

E. Northeast

10. The figure on the left is reflected as if in still water (reflection across a horizontal axis). Which option correctly shows the reflected image?

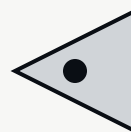

A

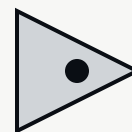

B

C

D

E

A. A: triangle inverted, dot near top

B. B: triangle inverted, dot near bottom apex

C. C: triangle unchanged (same as original)

D. D: triangle pointing left

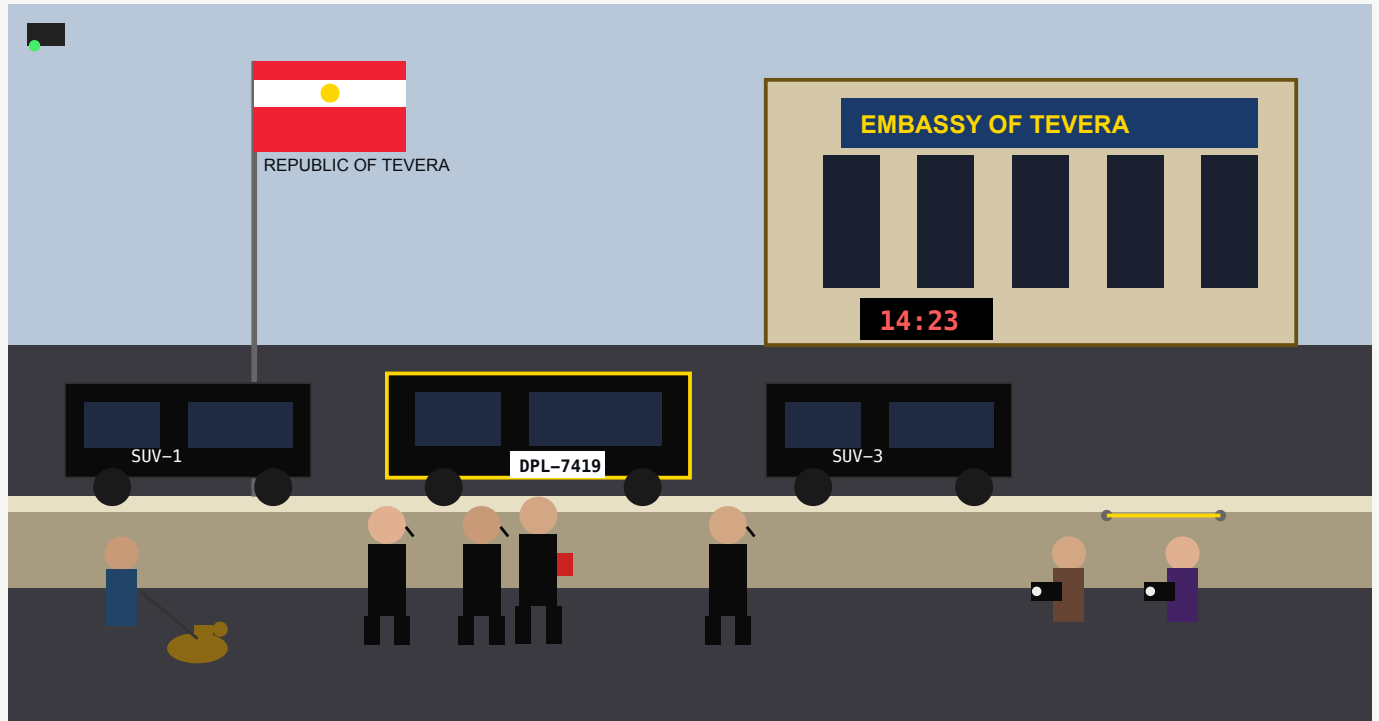

E. E: triangle pointing right

SECTION B: Detail Observation with Interference (11 through 20)

Study Scene 11 for 90 seconds, then Scene 12 for 90 seconds back-to-back. THEN answer all 10 questions with both scenes scrolled off-screen.

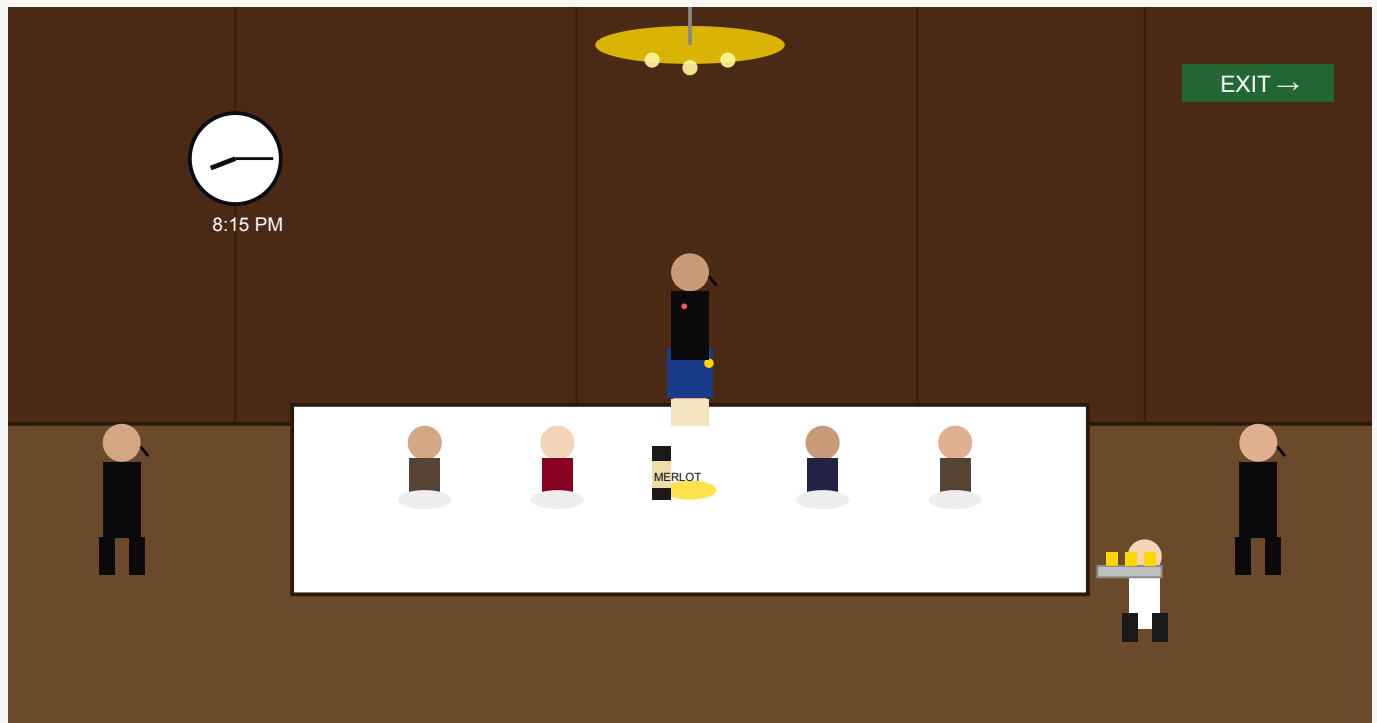

Scene 11: Embassy Motorcade Arrival (study 90 seconds)

🕒 First 90 seconds. Memorize every detail.

Scene 12: Private Dining Room Protective Detail (study 90 seconds)

🕒 Second 90 seconds. Memorize. Do NOT return to Scene 11.

⌚ Both scenes studied. Scroll down and answer ALL 10 questions WITHOUT scrolling back up.

11. (Scene 11) What country did the embassy represent, according to the sign?

- A. Republic of Teranova
- B. Embassy of Tevera
- C. Kingdom of Savonia
- D. Federal Republic of Teviot
- E. No country name appeared on the sign

12. (Scene 11) What time did the digital building clock display?

- A. 12:04
- B. 13:47
- C. 14:23

D. 15:32

E. 16:08

13. (Scene 11) What was the license plate on the middle vehicle (the limousine)?

A. DPL-4719

B. DPL-7419

C. GOV-7914

D. USA-1974

E. No plate was visible

14. (Scene 11) How many Secret Service agents (dark suits with earpieces) were clearly visible around the motorcade?

A. 1

B. 2

C. 3

D. 4

E. 5 or more

15. (Scene 11) What support unit was present near the motorcade?

A. A bomb-disposal robot

B. A K-9 unit (working dog) with a handler

C. A mounted police unit

D. A SWAT tactical team

E. No support unit was visible

16. (Scene 12) What time did the wall clock display?

A. 6:30 PM

B. 7:45 PM

C. 8:15 PM

D. 9:50 PM

E. No wall clock was visible

17. (Scene 12) What was the VIP (seated at the head of the table) wearing?

A. A black tuxedo with a red bow tie

B. A dark blue suit with a gold lapel pin

C. A charcoal gray suit with a silver watch

D. A tan sport coat and white shirt

E. A ceremonial military uniform

18. (Scene 12) How many guests (not counting the VIP or the agents) were seated at the table?

A. 2

B. 3

C. 4

D. 5

E. 6

19. (Scene 12) What was the server approaching the table carrying?

- A. A silver tray with three glasses
- B. A covered dish and a carafe
- C. A stack of menus
- D. A bottle of wine only
- E. Nothing; the server was empty-handed

20. (Cross-scene) In WHICH scene did an analog clock appear, and approximately what time did it show?

- A. Scene 11 only, showing 2:23
- B. Scene 12 only, showing 8:15
- C. Both scenes had analog clocks
- D. Neither scene had an analog clock; both were digital
- E. Scene 11 only, showing 14:23 in analog format

SECTION C: Logic-Based Reasoning (21 through 30)

21. A flight DEPARTS ON TIME IF AND ONLY IF the flight crew is ready AND the runway is clear. Flight 227 DID depart on time this morning. Which conclusion MUST follow?

- A. The crew was ready, but runway status cannot be determined.
- B. The runway was clear, but crew status cannot be determined.
- C. The crew was ready AND the runway was clear.
- D. At least one of the two conditions was satisfied.
- E. Departure happened as an exception; neither condition was required.

22. Six items (A, B, C, D, E, F) are placed in six positions numbered 1 through 6. Constraints: (1) B is in position 2; (2) D is in position 5; (3) E and F must occupy adjacent positions; (4) C must come somewhere before D; (5) A is NOT in position 1. Which order is consistent with ALL constraints?

A. C, B, E, F, D, A

B. A, B, E, F, D, C

C. C, B, F, D, E, A

D. B, C, E, F, D, A

E. C, B, F, E, A, D

23. Forty-five incoming calls are distributed among exactly seven dispatch operators. Every call is handled by exactly one operator. What is the MINIMUM number of calls that the busiest operator must handle?

A. 6

B. 7

C. 8

D. 9

E. Cannot determine without more information

24. Three suspects are interviewed: Adams, Brooks, and Carr. EXACTLY TWO are telling the truth. Their statements:

- Adams: "Brooks is lying."
- Brooks: "Carr is lying."
- Carr: "Adams is telling the truth."

Which pair is telling the truth?

A. Adams and Brooks

B. Adams and Carr

C. Brooks and Carr

D. Each of the three possibilities is consistent

E. No pair satisfies the constraint

25. "If Gate A is open OR Gate B is open, then the perimeter alarm sounds." On the night of incident #88, the perimeter alarm did NOT sound. Which conclusion MUST follow?

A. Gate A alone is closed.

B. Gate B alone is closed.

C. Both Gate A and Gate B are closed.

D. At least one of the gates is closed.

E. Nothing specific about the gates can be concluded.

26. "At exactly ONE of two outposts (North OR South) is a red alert active at any given time; never both simultaneously, never neither." Central confirms that the North outpost IS currently on red alert. Which conclusion MUST follow?

A. South is also on red alert.

B. South is NOT on red alert.

C. South's status cannot be determined without more information.

D. Exactly one outpost is always on red alert, but which is ambiguous.

E. The constraint produces a contradiction.

27. In a field office, 80% of agents are on duty at any given time. Of those on duty, 25% carry full tactical gear. What percentage of ALL agents (on or off duty) are BOTH on duty AND carrying tactical gear right now?

A. 5%

B. 15%

C. 20%

D. 25%

E. 80%

28. Premises:

- All Level A clearance agents are briefed weekly.
- Every weekly-briefed agent must sign the attendance log.
- Agent Nolan holds Level A clearance.

Which conclusion MUST follow?

A. Agent Nolan was briefed this week AND signed the attendance log.

B. Agent Nolan was briefed but may not have signed.

C. Agent Nolan signed the log but was not necessarily briefed.

D. Nothing about Agent Nolan's briefing can be determined.

E. Only Level A agents are required to sign the log.

29. A perimeter sweep consists of FIVE inspection points (X1, X2, X3, X4, X5) completed in numerical order. Facts:

- Total sweep time is exactly 150 minutes.
- X2 takes 15 minutes.
- X3 takes 30 minutes.
- X4 and X5 together take 60 minutes.

How many minutes does X1 take?

A. 15

B. 30

C. 45

D. 60

E. Cannot determine without knowing X4 and X5 individually.

30. Consider three statements that refer to each other:

- S1: "Exactly one of S2 or S3 is true."
- S2: "S3 is true."
- S3: "S1 is false."

Which assignment of truth values is CONSISTENT?

A. S1 = true, S2 = true, S3 = false

B. S1 = true, S2 = false, S3 = true

C. S1 = false, S2 = true, S3 = true

D. S1 = false, S2 = false, S3 = true

E. No assignment of truth values is consistent

Finished? The answer key and explanations live in a separate document: [answer-key-test-06.html](#). Review every miss AND every correct guess. Score 23 or higher and you are ready for Pearson VUE.
