Security & Automation Consulting Proposal

Prepared for

DefenseCo

Prepared by

Emmanuel Tigoue, CASP+ | CCNA | AWS Security

CoreDirective

Date

February 13, 2026

Executive Summary

DefenseCo has identified the need for AWS cloud security assessment. CoreDirective will deliver a focused engagement to address this requirement with clear milestones and measurable outcomes. Our approach combines hands-on technical execution with documented processes that your team can maintain after the engagement concludes.

Engagement Overview

Client	DefenseCo
Service	AWS cloud security assessment
Consultant	Emmanuel Tigoue, Security & Automation Consultant
Proposed Start	February 20, 2026

Scope of Work

Phase 1: Reconnaissance

Estimated timeline: 3-5 days

Map the attack surface. Identify exposed services, endpoints, and data flows.

Deliverables:

- Attack surface inventory
- Network topology diagram
- Exposed service catalog

Phase 2: Vulnerability Assessment

Estimated timeline: 1-2 weeks

Test identified targets for known vulnerabilities and misconfigurations.

Deliverables:

- Vulnerability scan results
- Manual testing findings
- Severity-ranked finding list

Phase 3: Reporting & Remediation

Estimated timeline: 3-5 days

Deliver findings with actionable fix guidance. Prioritize by business impact.

Deliverables:

- Executive summary report
- Technical findings with remediation steps
- 30/60/90 day remediation roadmap

Qualifications

CoreDirective brings direct experience in security assessment engagements backed by industry certifications including CASP+ (SecurityX), CCNA, AWS Security Specialty. This is not theoretical knowledge. Every credential maps to production work performed on real infrastructure.

Certifications

★ **CASP+ (SecurityX) (directly relevant to this engagement)**

- CCNA
- AWS Security Specialty

★ **SSCP (directly relevant to this engagement)**

★ **Security+ (directly relevant to this engagement)**

- Network+
- ISC2 CC

DoD 8140 Compliance: IAT Level III / IAM Level III compliant

By the Numbers

45+ Security Group Rules Managed	30+ AWS Resources Deployed	8 Docker Services Orchestrated	90% Alert Automation Coverage
---	---	---	--

Investment

The following pricing applies to the engagement described in this proposal for DefenseCo. All estimates assume standard scope. Significant scope changes will be documented and re-quoted before work begins.

Service	Investment	Timeline
Security Assessment	\$2,500 - \$7,500	2-4 weeks
Cloud Security Hardening	\$3,000 - \$10,000	2-4 weeks
vCISO Retainer	\$2,500 - \$5,000/month	Ongoing
Hourly Consulting	\$150/hr	As needed

Payment Terms

50% due upon engagement start. Remaining 50% due upon delivery of final deliverables.

For retainer engagements, monthly invoicing applies. Net 15 payment terms on all invoices.

Included in All Engagements

- ✓ Direct access to lead consultant via Slack, email, or Telegram
- ✓ Weekly progress reports with task completion metrics
- ✓ All source documentation and configuration files
- ✓ 30-day post-delivery support window at no additional cost
