## Security & Automation Consulting Proposal

Prepared for

**StartupXYZ**

Prepared by

**Emmanuel Tigoue, CASP+ | CCNA | AWS Security**

CoreDirective

Date

**February 13, 2026**

---

# Executive Summary

StartupXYZ has identified the need for Automate onboarding with n8n. CoreDirective will deliver a focused engagement to address this requirement with clear milestones and measurable outcomes. Our approach combines hands-on technical execution with documented processes that your team can maintain after the engagement concludes.

## Engagement Overview

|                |                                                   |
|----------------|---------------------------------------------------|
| Client         | StartupXYZ                                        |
| Service        | Automate onboarding with n8n                      |
| Budget Range   | 2000-3000                                         |
| Consultant     | Emmanuel Tigoue, Security & Automation Consultant |
| Proposed Start | February 20, 2026                                 |

# Scope of Work

---

## Phase 1: Workflow Design

*Estimated timeline: 3-5 days*

Analyze current manual processes. Design automation architecture and data flows.

### **Deliverables:**

- Process flow diagrams
- Integration requirements document
- API endpoint inventory

## Phase 2: Build & Integration

*Estimated timeline: 1-2 weeks*

Develop n8n workflows with error handling, credential management, and logging.

### **Deliverables:**

- Production-ready n8n workflows
- Webhook configurations
- Database schema (if applicable)

## Phase 3: Testing & Handoff

*Estimated timeline: 2-3 days*

End-to-end testing, documentation, and knowledge transfer to your team.

### **Deliverables:**

- Test results and validation report
- Runbook with troubleshooting guide
- Team training session (recorded)

# Qualifications

CoreDirective brings direct experience in n8n automation engagements backed by industry certifications including CASP+ (SecurityX), CCNA, AWS Security Specialty. This is not theoretical knowledge. Every credential maps to production work performed on real infrastructure.

## Certifications

- CASP+ (SecurityX)
- ★ CCNA (directly relevant to this engagement)
- ★ AWS Security Specialty (directly relevant to this engagement)
- SSCP
- Security+
- Network+
- ISC2 CC

DoD 8140 Compliance: IAT Level III / IAM Level III compliant

## By the Numbers

|                                               |                                         |                                             |                                            |
|-----------------------------------------------|-----------------------------------------|---------------------------------------------|--------------------------------------------|
| <b>45+</b><br>Security Group Rules<br>Managed | <b>30+</b><br>AWS Resources<br>Deployed | <b>8</b><br>Docker Services<br>Orchestrated | <b>90%</b><br>Alert Automation<br>Coverage |
|-----------------------------------------------|-----------------------------------------|---------------------------------------------|--------------------------------------------|

# Investment

The following pricing applies to the engagement described in this proposal for StartupXYZ. All estimates assume standard scope. Significant scope changes will be documented and re-quoted before work begins.

| Service                  | Investment         | Timeline  |
|--------------------------|--------------------|-----------|
| n8n Workflow Automation  | 2000-3000          | 1-3 weeks |
| Cloud Security Hardening | \$3,000 - \$10,000 | 2-4 weeks |
| Hourly Consulting        | \$150/hr           | As needed |

## Payment Terms

*50% due upon engagement start. Remaining 50% due upon delivery of final deliverables.*

*For retainer engagements, monthly invoicing applies. Net 15 payment terms on all invoices.*

## Included in All Engagements

- ✓ Direct access to lead consultant via Slack, email, or Telegram
- ✓ Weekly progress reports with task completion metrics
- ✓ All source documentation and configuration files
- ✓ 30-day post-delivery support window at no additional cost
